CARBON TRADING CO.

TO COMMENCE FARMER BONSPIEL

The President Vice-President banquet of the Carbon Curling Club was held in the dining room of the Carbon Hotel on Monday night and about 40 members sat down to a most sumptuous repast provided by the genial host, Percy Edwards. Following the dinner a toast was proposed to the winners of the President Vice-President competition by G. G. Peters and A.F. McKibbin and was responded to by Jas. McLeod and J.M. Macdonald. At this time Wilfred Poxon, district winner of the Oratorical contest, delivered his oration on "Canada's Economic Problems."

Discussion took place on the water situation at the far end of the town, relative to fire protection and a committee was appointed to approach the Village Council this year on the matter of putting in a cistern for fire protection, under the waiting room of the rink. Water in this cistern would not freeze in winter because of the fire kept in the waiting room and this water would be available at all times. In summer, when there is plenty of water in the creek for fire protection, this cistern could be filled by rain water from the roof of the rink.

A matter of interest was brought up in that of a Farmers Bonspiel, it being proposed to pick eight men who are curlers, to act as skips, and they are in turn to take a lead or second man and add two farmers or non-curlers to complete a rink. This suggestion was sanctioned by the meeting and the following men will be the skips: Torrance, Jealous, McGregor, S. Reid, Stan Carney, McKibbin, Malton and Peters. These skips were to have their rink registered by the secretary before Wednesday and the games are supposed to start today, all such games to be played in the afternoon so as not to conflict with the regular schedule.

At the curling meeting, which was held in the rink last Wednesday evening, some changes were made so as to fill up the rinks that were short players. These rinks now consist of: J. Spence, C. Knisley, R. Wacker and G.F. McGregor skip. Morbury, Taylor, P. Edwards and A.F. McKibbin, skip. S.N. Wright, W. Dixon and F. Bessant, skip. Gattman, Mansley D. Code and R. J. Fairbairn skip.

The games are to start at 7.30 p.m. and two nights a week a double header will be played. Every ten minutes that games are delayed for the absence of players, 2 points will be chalked up against them and after 30 minutes the game will be forfeited.

A motion was passed that a local bonspiel be arranged and that some be started on the regular schedule, each rink to put up \$1.00 for prizes.

Due to the fact that some rinks were short of men the Square Draw has been dropped. The following is list of the games in the old draw:

Skips	Played	Won	Last
Bessant	6	1	5
Code	4	2	2
Dunbar	5	3	2
Fairbairn	4	0	4
Greenan	6	3	3
Jealous	6	3	3
Malton	6	2	4
McGregor	6	2	4
Poxon	2	1	1
Reid	5	4	1
Torrance	8	8	0

CARBON YARD WINS PRIZE

In a prize competition for general business by yard managers of Imperial Lumber Yards, Ltd. in which all yards in the provinces of Manitoba, Saskatchewan and Alberta competed, the yard at Hamiota, Man. took first prize and the second prize was awarded to the Carbon, Alberta yard, which is managed by H. A. English.

LITTLE ITEMS OF LOCAL INTEREST

Mrs. Jasper Rochester returned on Saturday after spending the past two months visiting with her folks in North Dakota. Mr. Rochester went into Calgary on Saturday to meet her.

Misses Helen Smith and Dorothy Annier were Calgary visitors on Sunday.

Dennis Wilson arrived in Carbon last week.

Percy Edwards and R.J. Fairbairn were Calgary visitors last week.

Jack Atkinson, Alfred and Mr. Wallace, and Dan Code have returned after attending the short tractor course in Calgary.

Miss Vera Poxon came out Thursday night for the dance and returned to Calgary on Sunday.

John Currie has returned from a visit to the Pacific Coast.

R. J. Fairbairn is confined to his home suffering from an attack of pneumonia.

Alex Poxon was a Calgary visitor on Sunday.

Mr. and Mrs. E. Bettcher have moved on to their own farm south of Carbon.

The local United Farm Women are holding their regular meeting in the Farmers Exchange hall on Saturday afternoon, March 2. All farm women are invited to attend. The aims of this organization are to raise the standard of the home and community; to co-operate with all forces moral or material which are working for the good of our country and people.

MRS. H. BRADEN,
Secretary U.F.W.A.

BIG TIME PLANNED FOR ELKS NOVELTY DANCE

The Elks Novelty Dance which will be held in the Farmers Exchange hall Carbon on Tuesday evening, February 26, is to be one of the best dances of the season and the committee in charge of the arrangements are sparing no trouble to bring into display such novelties as: ho's, fans, horns and etc. all of which will help to keep the "Novelty" throughout the dance. It is expected that a large crowd will be present on this occasion.

HOW TO HITCH HORSES FOR CHEAPER FARM POWER

All Farmers interested in making farming a paying proposition should call at my Store and ask for my Booklet on the above subject. This is part of the free service which I intend to give this year.

W. A. BRAISHER

MUNICIPAL ELECTION SATURDAY

JOHN J. NEHER AND E. SCHELL
NOMINATED IN DIVISION 2

The meeting of the electors of the Carbon Municipality, which was held in the Masonic hall on Saturday afternoon, was well attended and a great interest was taken in the address given by Frank Stevens, Field Supervisor of the Department of Agriculture, on the subject of "Weeds and weed eradication."

It was decided to hold a Field Crop Competition in this Municipality next year.

Another speaker of the afternoon was Mr. Walsh of the Alaskan Chemical Products, at Calgary. Mr. Walsh explained the use of this chemical on the destruction of weeds and the council decided to purchase a barrel of this substance, same to be sold to the farmers of the Municipality.

Nominations for councillors for Divisions 2, 5 and 6 were in order and in Division 5 R.S. Near was returned by acclamation, while in Division 6 Geo. Webber was also returned by acclamation. In Division 2, two nominations were received, that of John J. Neher and Ed. Schell and this will be the only division in which an election will be held, and this election will take place next Saturday, February 23rd.

PLAY "CIVIL SERVICE" TO BE HELD HERE ABOUT MARCH 14

Members of the club in the Play "Civil Service" are practising hard at this time, getting ready to put on this attraction sometime about the middle of March at the latest. This play is to be held under the auspices of the Carbon Lodge No. 195, B.P.O. Elks, the proceeds to go towards the community hall fund.

Story of the Play (Part 1)

A comedy drama of American life depicting the joys and sorrows, the heartaches and struggles and temptations of a small group of government employees working in a small city in the West. There is the stern inspector, the officious postmaster, the busy body mail clerk, the ambitious young clerk who yields to temptation and robs the post office, the raw recruit and the noble hearted, plucky little stamp clerk, who bravely stifles her own feelings and lives for the advancement of her friends.

Watch next weeks issue for further knowledge of this comedy drama.

and ample refreshments will be provided at that time. This dance is held under the auspices of Carbon Lodge No. 195, B.P.O. Elks and the proceeds are to go towards the Elks Community hall fund. The local orchestra will furnish the music and a real good time is assured on this occasion, and a cordial invitation is especially extended to country folks and those of other towns. Boost for the community hall. Be there!!

The West and Its Natural Resources

The question of the transfer of the public lands and natural resources in the West by the Dominion to the three prairie provinces is once again very much to the fore. Ever since the provinces of Alberta and Saskatchewan were formed; in fact, to some extent ever since Manitoba was created a province, there has been a demand on the part of the Western Provinces that they should be placed in a position of equality with the older provinces in the matter of ownership and control of the public domain.

Fortunately, the question has now passed out of the realm of partisan controversy, because all political parties, Liberal, Conservative, Progressive, at Ottawa as well as in the Prairie Capitals, are agreed that the transfer should be made. Not only so, but the Governments of the Eastern Provinces have waived the objections so long urged by them. It is now only a question of reaching terms acceptable to the West on the one hand, and the rest of the Dominion on the other hand.

Negotiations are now under way with all three prairie provinces. In the case of Manitoba, agreement has been reached with the Dominion to the extent that a Commission is now engaged in studying the whole question of terms. Negotiations with Alberta reached the point of an agreement being actually signed between the two Governments, but later, Ottawa proposed to insert a provision relative to the school lands which was unacceptable to Alberta, and the agreement was not proceeded with. Ottawa has since modified its position and an early settlement of outstanding differences seems likely.

Saskatchewan's position is somewhat different from that of the other provinces. Whereas Alberta is rich in coal, oil, and other resources apart from lands, and recent discoveries have revealed a Flin Flon and a Sherif-Gordon in Manitoba, Saskatchewan's mineral wealth is yet to be proven. Furthermore, Saskatchewan's chief wealth has been found in its agricultural lands, and to a large extent these have already been disposed of by the Dominion, with the result that there is not as great wealth to be handed over by the Dominion to Saskatchewan as exists in the case of the other two provinces. Saskatchewan, therefore, has a stronger claim for compensation for lands alienated under Dominion administration for the general benefit of all Canada. However, negotiations are in progress.

The sooner all these questions are finally settled and the Western Provinces placed in control of their lands and resources the better. There cannot be complete unity among the provinces, nor full development of a national spirit and aims, so long as Western Canada feels it is forced into a position of inferiority to the Eastern Provinces. The interests of the Dominion demand the removal of any cause for such feeling. Further, whatever arguments may have been convincing in 1905 for retention of the public domain by the Dominion on the ground that they could administer them better than could the newly created provinces with all the manifold tasks before them, and with but small populations and financial resources, those arguments are removed now that there are over two million people in the three prairie provinces with fully developed governmental institutions and strong financial credit.

Constitutional issues, it is true, are involved in any consideration of the matter. The West does not, and cannot, accept the interpretation placed upon certain enactments by the Dominion and the Eastern provinces, notwithstanding that Eastern opinion is greatly modified to what it was a few years ago. It would, however, be a mistake for the negotiating parties to take up positions based solely upon constitutional grounds. To do so would mean long and expensive litigation right through to the Privy Council, in England. Then, when the legal and constitutional issues were finally settled, an army of expert accountants would have to be engaged for years to delve into all the many transactions involving lands and resources since the passage of the first Dominion Lands Act, in 1872.

The sane, sensible, business-like thing to do now is for the representatives of the Dominion and the Provinces to gather around a table and reach an amicable agreement, fair, reasonable and acceptable to all. The sooner this big issue is settled the better for Canadian national unity and strength, and the quicker will the resources themselves be developed for use of the people and add to the growth, development and wealth of an Canada. So long as they remain in the present unsettled state neither Dominion nor Provincial Governments can proceed with proper and energetic developmental policies, and, as a result, progress is retarded.

First Bird—Don't you know better than to sit on this chimney? You're getting all dirty.
Second Bird—Soots me all right. Thunder does not sour milk, but the same condition of the atmosphere which causes thunder does sour milk.

Simple Precautions Against FLU Sore Throat — — The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease—breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

The Airplane Ambulance

Actual Demonstration To Be Given In Paris Next May

The airplane which has already proved its worth as a passenger, mail, and express carrier, is now to become an ambulance.

An international congress will assemble in Paris next May to consider air transportation of sick and injured in both military and civil life, the Commerce Department has been advised by its representatives there.

Actual demonstration of the airplane ambulance will be given at Le Bourget Field, where a pseudopatient will be bundled aboard, carried to some provincial village and returned.

NERVOUS INDIGESTION AS A RESULT OF FLU

A Severe Sufferer Overcame This Trouble By Taking Dr. Williams' Pink Pills

No ailment of recent years has proved so treacherous as has the Flu. The disease itself is bad enough, but the after effects is where the real danger lies. The Flu leaves behind it a weakened body, impoverished blood, shattered nerves and an impaired digestive system. Too much stress cannot be laid on the importance of rebuilding the blood and strengthening the nerves during convalescence. Until the blood is built up there can be no recovery of health and strength. The one sure blood-builder is Dr. Williams' Pink Pills. Start a treatment of them today and see how soon you show signs of robust health again.

Among the many victims of the terrible Flu epidemic of 1919 was Mrs. Irving Maxwell, of Bancroft, Ont. Read what this lady has to say concerning what Dr. Williams' Pink Pills did for her:—"After an attack of the Flu I was left in an extremely weak state. My blood was impoverished; I was seized with indigestion and stomach trouble; my nerves were shattered and nothing my doctor gave me seemed to help me in the least. I continually grew weaker and weaker till finally I lost all control of my nervous system. My mother, who had used Dr. Williams' Pink Pills with good results for anemia, strongly advised me to give them a trial. I did so, and after using three boxes I noticed some improvement. I persisted in the treatment and by the time I had used seven boxes I was fully restored to health again, and although I am a mother of six children I am now able to do all my work around the house and feel as well as ever I did in my life before. What these Pills have done for me they will surely do for others."

Dr. Williams' Pink Pills are a tonic, not a stimulant. They build up the blood and are a specific for such troubles as indigestion, rheumatism, women's ailments and the general worn-out feeling that affects so many people. They are sold by all medicine dealers or direct by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Non-Inflammable Paper

German Gives Successful Demonstration Of His Fireproof Invention

A paper that does not burn has been discovered. The German inventor, Mr. Franz Franck, gave a demonstration recently. He took a sheet of ordinary newspaper, crumpled it into a ball, and wrapped this highly combustible object in a sheet of his fireproof paper. Thus protected, he held it for a few minutes in the flame of a laboratory blast lamp hot enough to melt a glass window-pane. Not only did the fireproof wrapping survive, but the ordinary paper inside was not even scorched.

Breaks All Records

Breaking all records for long distance telephone communication, Prince Carl, brother of King Gustav, and his wife, the Princess Ingeborg, conversed from Stockholm, Sweden, with the Crown Prince and Princess of Belgium, who were at Bandoeng, Java, Dutch East Indies. The distance traversed was 8,383 miles. The conversation was carried by wire to Amsterdam from Stockholm and thence by wireless to and from Java.

The most obstinate corns fail to resist Holloway's Corn Remover. Try it.

Just about the time you wonder why someone has escaped the penitentiary so long, he comes out as a candidate for some important office.

Minard's Liniment for the Grippe and Flu.

To Develop Home Art Industries

Canadian Handicraft Guild To Hold Exhibition In Regina

The Canadian Handicrafts Guild, whose object is to encourage, revive and develop home art industries throughout Canada, will hold an exhibition in the Saskatchewan Hotel, Regina, March 20 to 23rd, 1929. The exhibit will be open to anyone free of entry fee or charge who is skilled in making bead work, basketry, embroidery, knitting, laces, leather work, metal work, pottery, quilts, rugs, sewing, weaving, wood work, etc. Everything, however, must be handmade.

The object of the Guild is to preserve the knowledge and skill possessed by our people and to encourage industry and thrift in the home of the public, making their work profitable and honourable by means of exhibiting the products of their skill and to keep records in order to prevent the extinction of any arts or crafts. The Guild will undertake to sell any exhibits that are sent in but every person should, of course, put his or her price on the article.

One feature of the exhibit will be to educate the public to the value of good handwork, so that a demand may be created for these handicrafts thereby enabling our people to find their interesting and artistic work at home remunerative.

This is the first exhibition that has been held in Saskatchewan but in other provinces successful exhibitions have been held in which the sales have gone as high as \$50,000.

Anyone interested in any way should communicate with the Secretary, Canadian Handicrafts Guild, Saskatchewan Hotel, Regina, and any information will be cheerfully furnished. The Guild is not a profit-making institution, (there are no entrance fees), but is out to help others help themselves. No time should be lost, therefore, in writing at once to the secretary for information.

The Folk Song and Folk Dance Festival at Regina, will be held at the same time and a most interesting four days is expected.

Use Minard's Liniment for the Flu.

A snake would starve to death rather than eat anything but living prey.

It is the cause and not the death that makes the martyr.

Will Introduce Flag Bill

Resolution Dealing With Canadian Symbol Will Be Considered

The adoption of a Canadian flag will come before parliament during the present session through a resolution placed on the order paper by C. R. McIntosh, Liberal member for North Battleford.

The resolution of Mr. McIntosh calls for the appointment of a special committee "for the purpose of considering the advisability of adopting a Canadian flag representing Canada as a whole which shall form part of the British flag as the symbol of the dominion as an equality partner in the commonwealth of British nations."

Short of Breath Smothering Feelings Choking Sensation

Mrs. H. Day, Dartmouth, N.S., writes:—"For over a year I was troubled with smothering spells and shortness of breath, and it was impossible for me to walk, even a short distance, because of the choking sensation which followed.

After trying many treatments, in vain, I at last decided to try

and in a surprisingly short time they did me much good.

Price 50c per box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Of a sane man there is only one safe definition: he is a man who can have tragedy in his heart and comedy in his head.

Ask for nothing but what is right and submit to nothing that is wrong.

For Colds -

How many people you know who end their colds with Aspirin! And how often you've heard of its prompt relief of sore throat or tonsillitis. No wonder millions take it for colds, neuralgia, rheumatism; and the aches and pains that go with them. The wonder is that anyone still worries through a winter without these tablets! They relieve quickly, yet have no effect whatever on the heart. Friends have often told you Aspirin is marvelous; doctors have declared it harmless. Every druggist has it, with proven directions. Why not put it to the test?

Aspirin is a Trademark Registered in Canada

ASPIRIN

WILL MAKE BID FOR LARGE AREA IN FAR NORTH

Ottawa.—While cabinet ministers and western members of Parliament will not discuss, openly, the announcement that Premier J. G. Gardiner, of Saskatchewan, will seek a vast extension of the area of that province when he comes here to confer with the Dominion Government, there is the keenest interest in his proposition.

The reaction on the whole, is most unfavorable and no one appears ready even to consider the possibility of granting to Saskatchewan the territory immediately to the north of Manitoba.

This attitude of course is more marked among Manitoba members than others, but the general views of eastern members and ministers is that to grant Mr. Gardiner's request would precipitate a quarrel between the provinces which would have far-reaching results and might, conceivably, become an outstanding national issue.

Some members believe that no change in the present boundaries should be made until the northern areas are populated and that there should then be created new provinces to the north of the present prairie provinces. However, the majority of members agree that this ought not to be done, but that, when the time comes, the present provinces should be extended northward.

The motives behind Mr. Gardiner's demand are well appreciated here. The area to the north of Manitoba and Saskatchewan extending to the Arctic Ocean and bounded on the east by Hudson Bay and on the west by a line drawn from Coronation Gulf to the present western boundary of Saskatchewan is potentially one of the richest mineralized areas in Canada. About one-third of the famous pre-Cambrian shield lies in this northern territory, and active prospecting financed by two of the wealthiest mining corporations in Canada, is proceeding north of Chesterfield Inlet and along the Copper Mine River, running into the Arctic Sea. Within a few years tremendous mining development may take place in this northland.

Loyal To British Crown

New Delhi, India.—Forty of the native rulers met here and unanimously passed a resolution deprecating proposals for the complete independence of the country. The assembly, which was held in the chamber of princes, reiterated the loyalty to the British Crown of all its members.

The First Dose Relieves the Cough

May Require Aid Of British Parliament

To Smooth Out Difficulties In Connection With Manitoba Act

Ottawa.—The possible necessity of invoking the legislative machinery of the British Parliament to smooth out certain difficulties of certain lands in Manitoba, was raised by R. W. Craig, counsel for the province, at a session of the Manitoba natural resources hearing.

Mr. Craig, during the course of his argument, pointed out that the British Parliament had passed the Manitoba Act of 1870 and provision had been made whereby it could not be changed by the Dominion parliament.

It might be necessary, in order to change the present financial terms between the provinces and the Dominion, to have the British Parliament validate such change by statute, Mr. Craig declared.

Historical authorities were quoted and precedence cited by Mr. Craig in support of his contention that the Dominion's interest in the province's lands were primarily of legislative jurisdiction and did not involve proprietary rights.

To Prevent Grain Mixing

Changes In Wheat Marketing To Be Demanded By Western Members

Ottawa.—Drastic changes in the methods of marketing wheat are being demanded by the members from the prairie provinces and those demands will find their echo in the House this session from both Liberal and Progressive members.

When Robert Gardiner, Progressive leader, in the House the other evening demanded the resignation of the present board of grain commissioners and the establishment of a new board of five to administer the Canada Grain Act, he expressed the views of many in the prairie provinces. Yet the Liberals are asking for more.

Before the present session is far advanced there will be a demand for some means to prevent mixing at the terminal elevators, for changes in the personnel of the board of grain commissioners and for action in the direction indicated in the report of the agriculture committee last session regarding the establishment of protein content as the chief measure of the market value of wheat.

Amend Post Office Act

Bill Has Been Given First Reading In House Of Commons

Ottawa, Ont.—A bill amending the post office act was given first reading in the House of Commons. The measure concerns the ownership of newspapers. It provides that a sworn statement must be furnished to the post office semi-annually giving the names and addresses of editors, owners and stockholders and other particulars. Religious publications are not affected and the names of small stockholders may be omitted in all returns, according to a clause in the bill. It is proposed that failure to comply with these provisions may incur a penalty of denying admission of dilatory newspapers to the mails. A further clause provides that paid reading matter must be marked as advertisements. Neglect to comply with this provision under the bill would incur a fine of not less than fifty dollars and not more than five hundred dollars on conviction. The measure was introduced by T. L. Church, Conservative, Toronto northwest.

Had Narrow Escape

Alfreton, Derbyshire, Eng.—Passengers on the night express from London to Glasgow had a narrow escape when the locomotive and baggage coaches were derailed but the coaches kept to the rails. No passengers were injured but the express messenger and firemen were missing and believed to be under the derailed locomotive.

Alaskan Wins Dog Derby

Laconia, N.H.—Leonhard Seppala, Alaskan musher, won the New England championship dog sled race by beating out Emil St. Godard of the Pas, Man., on the last 15 miles of the race and finishing 12 minutes and 17 seconds ahead of St. Godard for the three-day run.

PASSES EXAMINATION

C. E. Kay, the first Canadian student to pass the final examination of the chartered institute of secretaries, London, England.

Will Make No Change

Thanksgiving Day and Armistice Day To Be Celebrated As Two Distinct Features

Ottawa.—Thanksgiving Day and Armistice Day will continue to be celebrated in Canada as two distinct features of national life, the one in acknowledgement for the bounties of Providence, and the other in homage to the memory of Canada's sons and daughters who gave their lives in the great war. This was affirmed when the House of Commons rejected a resolution introduced by F. W. Gershaw (Liberal-Progressive, Medicine Hat), the purpose of which was to combine both Thanksgiving and Armistice Days into one holiday, on November 11, annually.

Dispute Was Settled

Canadian Workers Re-Instated In Old Positions In Toronto

Ottawa.—In the House of Commons H. B. Adshad, Labor, East Calgary, asked the Minister of Labor whether he had any information to give the members with reference to German immigrants brought into this country to replace Canadian workers in Toronto.

Hon. Peter Heenan replied that he was now able to inform the House that a settlement had been reached whereby the Canadian workmen were re-instated in their old positions at the same wages which they received prior to the dispute.

Rapid Comeback For Britain Predicted

Sir Alfred Cope Sees End Of Period Of Depression

Montreal.—That Great Britain was rapidly coming to the end of the period of depression and that she would come back to the foremost position she once held was predicted by Sir Alfred Cope, under-secretary of state for Ireland from 1919 to 1922.

He is at present managing director of the Amalgamated Collieries of South Wales and is here in the interest of marketing Welsh coal in Canada. He said the coal industry had introduced economies long overdue.

Dry mouth and parched throat are grateful for the refreshing coolness of Wrigley's Spearmint.

Wrigley's whitens teeth, sweetens the mouth, clears the throat and aids digestion, while the act of chewing calms and soothes the nerves.

Consider Tunnel Idea Nothing But Gamble

Should Not Be Started Without Investigation, Is Opinion Of Expert Engineer

London, Eng.—The project for the construction of a tunnel under the English Channel is a gamble.

This is the considered opinion of John Dalrymple-Hays, one of the world's authorities on tunnel engineering, who, in an interview with International News Service, declared the construction of the tunnel should not be decided upon in the first flush of enthusiasm.

Dalrymple-Hays' word must be received with deference. He is an engineer with unrivalled experience in this sort of work. He acts as consulting engineer for the company controlling London's subways, and has had the design and supervision of 500 miles of underground tunnels in London.

"The channel tunnel project is a gamble purely and simply because there is no authority who can say with certainty what may be the thickness of the strata in the middle of the English Channel."

"Again the whole thing is a gamble because it is being done blindfold. As a practical engineer, I say that there is not a particle of real evidence to show the thickness of the strata under the sea. Geologists say they have taken fossils and samples from the sea bed, but to an engineer that is just moonshine. They know nothing of the depth of the chalk."

Trapped In Burning Cabin

Neighbor Unable To Effect Rescue Of Three Prospectors

Sioux Lookout, Ont.—Trapped by flames in their tiny cabin, three prospectors lost their lives at the narrow Woman Lake Portage, according to word reaching here. With them perished their four dogs which were chained to the outside of the building.

The three victims were Tony Tyrell, and men named Gougan and Viogt.

No word is yet available as to where the three came from. Terrified barks of the dogs roused R. F. Dynes, sleeping in a shack some distance. He rushed outside to see the cabin in flames but found it impossible to effect a rescue. He could not even get near enough to release the still living dogs.

Word of the tragedy was brought out by aeroplane.

Stricter Penalty For Violating Drug Act

Amendments Under Consideration To Curb Traffic In Narcotics

Ottawa.—The House of Commons considered in committee of the whole a bill to amend and consolidate the opium and narcotic drug act. The measure provides increased penalties in cases of conviction for selling giving away, or distributing drugs without a license from the minister of national health. Under the clause inserted a judge may at his discretion, sentence a convicted person to be whipped, in addition to the imposition of fine and imprisonment. A further change provides that persons guilty of infractions of the act shall be liable to payment of costs of prosecution. Other amendments are incorporated, a number of which are for purposes of clarity.

Large Butter Consumers

Canadians Use More Butter Than Any Other Nation

Vancouver, B.C.—Canadians are the largest consumers of butter in the world, declared Dr. J. D. Ruddick, Dominion Dairy Commissioner, in addressing the Western Canada Dairy Convention here on "Dairy Progress in 1928." Their annual per capita consumption, he put down at 27 pounds to which must be added 3½ pounds of cheese. Increased home consumption, according to Dr. Ruddick, had led to a large drop in butter exports and in this connection he referred to the huge consumption of dairy products by the automobile tourists who annually invaded Canada, this trade alone now accounting for between 12,000,000 and 15,000,000 pounds of butter every year.

INTENSE COLD IN EUROPE CAUSES GREAT SUFFERING

London, Eng.—The almost unprecedented siege of cold weather has taken a great toll of life in Europe in the last week, and despatches from almost every country between the North Sea and the Bosphorus brought reports of most critical situations.

Deaths due directly and indirectly to the cold weather have gone well over 10,000 since Monday, and there appeared to be no weakening of the grasp of the most severe winter in the memory of living men.

At Landau, the French sentry on duty with the army of occupation in Germany, was frozen to death in Germany, was frozen to death. Forty other sentries collapsed due to cold and as many as possible were withdrawn from duty. The temperature was 11 below zero at Wiesbaden.

Advices received by Central Radio at Vienna said 10,000 persons had assembled at one point in Budapest to receive coal rations from the Hungarian government.

Several deaths due to cold were reported from Budapest, including a night watchman and his wife, who were frozen. The Hungarian capital was paralyzed by snow, which halted virtually all traffic, the United Press correspondent reported.

England was swept by severe snowstorms and communications were disrupted. The influenza epidemic, combined with cold and cold weather accidents, has caused most of the deaths which have reached a total of well more than 10,000 during the winter, according to reliable statistics from 11 capitals.

The statistics include:

France—2,500 deaths due to influenza and similar diseases.

England and Wales—2,100 deaths due to influenza, cold, shipwrecks.

Spain—1,500 deaths due to shipwrecks, influenza and cold.

Germany—1,400 deaths due to influenza in larger German cities.

Czecho-Slovakia—Influenza epidemic increased death rate in last two months by 55 per cent. in rural areas.

Italy—Scores of deaths attributed to cold, and estimated increase of four per cent. in death rate.

Holland—200 deaths from influenza and shipwrecks.

Austria—150 deaths in Austria due to cold and influenza.

Forestry Association Officers

Ottawa.—Brigadier-General W. B. White, Montreal, was elected president of the Canadian Forestry Association, at the convention here. Directors include Charles Hayden, Calgary; T. S. Dixon, J. D. Robson, and P. A. Wilson, all of Vancouver.

MEDALTA POTTERIES LTD. HAS BEEN SOLD

One of the largest manufacturing plants in Alberta has changed hands with the purchase of the Medalta Potteries, Limited of Medicine Hat by R. C. Carille and O. C. Arnold of Calgary. The assets of the company include valuable clay deposits in Alberta and Saskatchewan. The plant having capacity of over one carload of pottery per day. This plant, it is stated produces some 75 per cent of the pottery manufactured annually in Canada.

C.N.R. TO BUILD ALBERTA BRANCH RAILWAY LINES

Of the 695 miles of branch lines construction which is proposed by the Canadian National Railways during the next three years, 156 miles are in Alberta. The longest project in the province is 82 miles of new construction to run south easterly from Alliance to near Dobson on the Calgary-Saskatoon line of the C.N.R. In addition to serving a large area of good agricultural land this branch will considerably shorten the haul for grain and other shipments to Edmonton. From this new line a branch 25 miles in length will be built in a north-easterly direction from Bulwark. The building program in Alberta also includes the extension of the Lovena line from its present terminus at Hemaureka to Seapa on the Hanna-Warden line, a distance of 41 miles following the route originally projected by the Grand Trunk Pacific.

An old time resident of the province and a valued public servant in the person of F. G. Forster died at his home in Edmonton on Wednesday after an illness of several weeks. Mr. Forster was well known among the newspaper fraternity of the province, having been at one time editor of the Medicine Hat News. He later occupied the position of Assistant Publicity Commissioner for the Alberta Government and in recent years has been Supervisor of Licenses for the Liquor Control Board.

A skin game.—Two young boys living 90 miles northwest of Edmonton started a coyote farm in 1927 by digging young coyotes out of the ground and confining them in a pen. They got 140 young animals and when their skins were mature sold them for \$12 each.

A southern packing plant specializes upon horse meat for shipment to parts of Continental Europe where it is very popular. It has been suggested that the nondescript range horses straying about Southern Alberta be herded for packing purposes. It is a pity someone could not figure out a similar way of consuming some of the old motor cars that are loose on the highways.

Twenty oil burners measuring overall 97 feet in length and weighing 725,000 pounds have been ordered by the Canadian Pacific Railway and will be in passenger and freight service through the mountains this summer. Each of them will do the work of two or more of the lighter locomotives. They are the largest in the British Empire and will revolutionize transportation in the west, it is predicted.

Victoria is having a mid winter golf tournament open to members of the local clubs and to guests of the Empress Hotel, and the players won't have to play in mittens and fur coats, either. In the east they have a game called winter golf that they play with bow and arrows on skis or snowshoes, but the golf at Victoria is the legitimate article. The game is played the year round in the equable climate of the Pacific coast.

Unique and luxurious cars, differing from anything operated in this country before, will be carried by the two crack trains of the Canadian Pacific Railway, the Trans-Canada Limited between Montreal, Toronto and Vancouver, and the Mountaineer, from Chicago to the Pacific coast. It has been announced. The cars will have bath rooms, valet service, lounge and smoking space, and a solarium, with vitreous windows.

The sea is constantly productive of tales of adventure. A recently told story is that about Commander S. Robinson, O.B.E., of the Canadian Pacific liner Empress of France who turned his ship into the face of a hurricane and went 500 miles out of his course to take aid to injured seamen on a storm tossed Japanese freighter. The great liner waited beside the freighter, which had been badly battered by the huge waves and some members of whose crew had been injured, but found it impossible for boats to pass between the two ships to convey a doctor. After waiting for half a day the master of the Japanese ship reported that he could make port, and the Empress of France continued on her interrupted voyage.

Here and There

(219)

Boys at Red Deer, Alberta, earned Christmas pocket money by trapping. They brought in nearly 400 weasel skins in less than a fortnight and also coyotes, rabbit, squirrel and cat skins.

Further experiments with superphosphate from the smelter at Trail, B.C., will be conducted in 1929 by the Alberta Department of Agriculture in conjunction with the Dominion Experimental Farms and C. P. R. experimental farms. An abundant quantity of this fertilizer will be available to meet demands.

Upwards of four millions of dollars will be expended this season in effecting alterations, improvements, and extensions to the Pallister Hotel at Calgary, Alberta, and the Empress Hotel at Victoria, British Columbia. E. W. Beatty, chairman and president of the Canadian Pacific Railway has just announced. Four additional floors will be added to the former and an entirely new wing will be extended from the latter, bringing these two famous hosteleries even more up to date.

A Negro preacher walked into the office of a Southern newspaper and said: "Misto Editor, they is forty-three of my congregation which subscribe fo' yo' paper. Do that entitle me to have a chu'ch notice in yo' Salday issue?" "Sit down and write," said the editor. "I thank you." And this is the notice the minister wrote: "Mount Memorial Baptist Church, the Rev. John Walker pastor. Preaching morning and evening. In the promulgation of the gospel three books are necessary: The Bible, the hymn book, and the pocketbook. Come to-morrow and bring all three."

NOTICE OF SALE

Carbon Alberta, February 12, 1929
The following animal will be sold by public auction on Saturday, March 2nd 1929, at 2.30 p.m., in accordance with the provisions of The Livery Stable Keepers Act, Chapter 107 of The Revised Statutes of Alberta, 1922.
Description of Animal—One bay gelding, age 10 yrs. Amount of Lien is \$46.45. Owner, Edmond F. Archambault. Seller, W. Leitch, Carbon Alberta.

PLANT EARLY, IS Warning

Owing to extraordinary dry condition of the ground and the likelihood of small crops if heavy spring rains are not felt in the province, Walter S. Woods, Southern Alberta superintendent of the land settlement branch has sent out letters out to his field representatives, urging them to see that settlers under their charge get their seedling done early.

Should protracted spring rains come the man with his seed ready to germinate in the ground will be fortunate. He is also asking the field men to bring pressure to bear on settlers to be sure and select good seed, because of frost conditions last fall.

Here and There

(233)

Large cargoes of wheat are being shipped to Japan and the Orient through Vancouver these days. It seems like sending coals to Newcastle to send flour to "The Flowery Kingdom."

Some foundation for the old nickname "woolly" west is found in the report that Alberta's wool output for 1928 amounted to 3,033,181 pounds. Altogether the Dominion produced over eighteen and a half million pounds.

Steel is replacing wood in freight service on the Canadian Pacific Railway as 7,500 box cars now on order for the company will be of steel construction. They will have a capacity of about 2,000 bushels of grain and a load of 120,000 pounds.

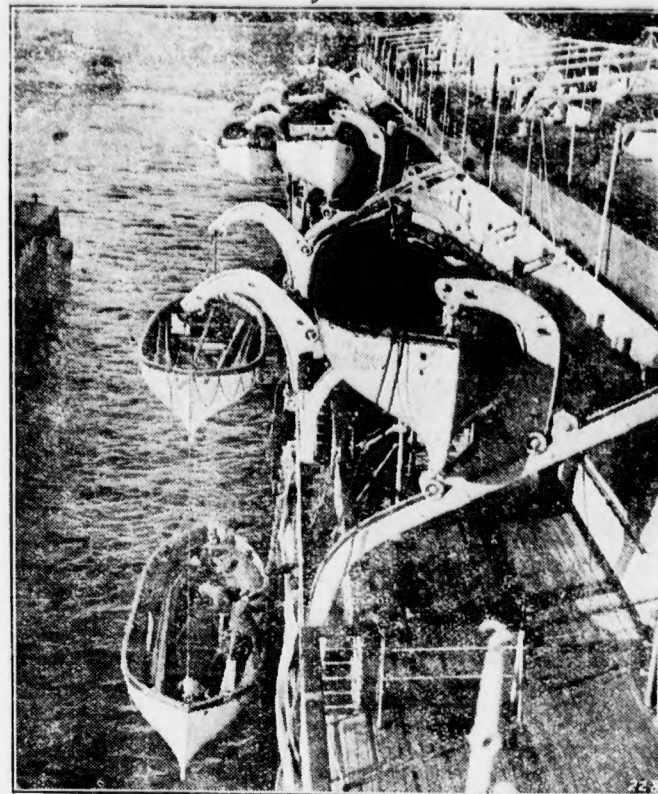

Fur-farming is developing many branches, one of the most recent being the organization in Manitoba of the Manitoba Muskrat Breeders Association. The body plans to study muskrat breeding conditions and to investigate all phases of the industry.

In a recent speech at Kitchener, Ontario, E. W. Beatty, chairman and president of the Canadian Pacific pointed out that the average freight rate per ton per mile in Canada is about 5 1/2 per cent lower than in the U.S., and that the average of Canadian grain rates is 40 per cent lower.

The Trans-Canada will cross the continent in an hour and a half less time eastbound, and an hour less westbound than it did last year. This does not mean that Canada has got any smaller, but that the Canadian Pacific Railway is running the famous flyer on an improved schedule.

Penny postage, inaugurated at Christmas, is working well and bringing about a notable increase in letter mails from Canada to the British Isles, according to federal postal officials. It is estimated that the increase in the course of a year would be such as to offset the \$200,000 estimated reduction in revenue by the penny rate.

In Manitoba, there is one tractor for every 4.6 farms; in Saskatchewan, one for every 4.7 farms; and in Alberta, one for every 7.5 farms. If all the tractors were hitched together, how long could it take a garage mechanic to reach the moon.

Newest Lifeboat Gear

When the Canadian Pacific liner Duchess of Bedford arrived in New York recently to start a series of cruises to the West Indies, the crew, under the direction of Captain H. Sibbons and his officers, demonstrated the efficiency of her up-to-date lifeboat gear in a fashion that amazed the inspectors.

Shown above is the latest thing in lifeboat lowering equipment, capable of lowering twenty-eight boats in ten minutes. The davits, which are controlled by one man, slide down the rails until the boat is at deck level. It is then lowered by gravity to the water and can be released by trigger, the falls then being hoisted again and attached to another boat which is nested on the same davit.

United States officials stated that this Wellin-MacLachlan gear was the most efficient ever seen in New York.

Who Does Your
Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

WORLD HAPPENINGS BRIEFLY TOLD

A great swarm of locusts, which were devastating Palestine, were driven into the eastern deserts by the high winds and the crops are saved.

Hugh Lawley, an Oxford man, has patented a radio set, of four tubes, that he has built into a miniature grandfather's clock.

Lily Langtry, famous actress and long known as the "Jersey Lily," died recently at Monte Carlo from an attack of bronchitis.

The Greek chamber of deputies has ratified the Kellogg anti-war treaty and the non-aggression pact with Italy.

Canadian breeders will exhibit in the neighborhood of 1,000 birds at the World's Poultry Congress to be held at Crystal Palace, London, in July, 1930.

Russia, Poland, Rumania, Estonia, and Latvia have signed a protocol by which the terms of the Kellogg-Briand renunciation of war act are placed into effect immediately as between themselves.

It is authoritatively stated that the two British cruisers upon which construction started a few weeks ago will be 10,000 tons each, the maximum displacement under the Washington treaty.

The Associated Press learns on good authority that Dr. Hjalmar Schacht, president of the German Reichsbank, told the reparations experts that Germany could no longer pay at the present rate under the Dawes plan.

Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from paring corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. It afflicts with corns, calluses or sore foot-jumps, use "PUTNAM'S." It's reliable, and sure to shroud up the corns so they drop right off. No pain, no soreness, but quick relief from corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c, at all dealers.

In the building of a railway line in French Equatorial Africa, 37,000 negro laborers have died from disease, privation and exposure.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

Elevator Merger Announced

The Fort William "Times-Journal" announces the consummation of a merger under which the Western Grain Company, Limited, has been formed to take over the assets and undertakings of six grain and elevator concerns that have been in operation for periods ranging from 19 to 25 years. The companies include the Western Elevator Company, State Elevator Company, Central Grain Company, Spencer Grain Company, Beaver Grain Company and the Western Terminal Elevator Company.

KEEP YOUR BABY HAPPY AND WELL

Every mother wishes her child or children to be well and happy; to be bright-eyed, rosy-cheeked boys and girls. No mother, though, can expect her children to escape all the ills of babyhood and childhood, but she can do much to help them fight the battle for health.

All prudent mothers constantly keep at hand the means of aiding their little ones when sickness comes suddenly—as it generally does in the case of children. In every home where there are infants and young children Baby's Own Tablets should be found. Read what Mrs. Mary Hill, Centre Dummer, Ont., says concerning these Tablets: "I am the mother of six children and would not be without Baby's Own Tablets. They are a wonderful medicine for little ones."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus break up colds and simple fever, banish constipation and indigestion and allay the irritation accompanying the cutting of teeth. They are absolutely safe and are pleasant to take. The Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Whatever He Thought

This isn't a new one, but it is worth re-telling. A little girl ran into her home one afternoon and said to her maiden aunt, a Christian Scientist: "Auntie, you know that old man on the corner who was ill?"

"You mean he thought he was ill?" corrected the aunt.

"Well, now he thinks he's dead," said the little girl.

Wine-making is the principal industry of Portugal.

Books are the ever burning lamps of accumulated wisdom. —Curtis.

GRIDDLE CAKES

Who doesn't like griddle cakes? From father to the youngest member of the family, every one clamors for more—when they are tasty! Here is a tested recipe:

- 1 cupful Borden's St. Charles Milk.
- 1 cupful water.
- 2 tablespoonfuls melted butter.
- 1 egg, well beaten.
- 3 cupfuls white flour.
- 1 teaspoonful salt.
- 4 teaspoonfuls baking powder.
- 2 tablespoonfuls sugar.

Combine the milk and water, add the shortening, sugar, and the egg, and beat in the dry ingredients which have been sifted together. Beat thoroughly and fry as usual on a slightly oiled griddle, or on an un-oiled aluminum or soapstone griddle. If very thin cakes are desired, add two more tablespoonfuls of St. Charles milk and water. For further interesting recipes write for the Borden Cook Books, addressing The Borden Co., Ltd., Dept. WL, 149 St. Paul St., Montreal.

PARENTS HAPPY WHEN BABY SLEEPS SOUNDLY

Here's a way to soothe crying, wakeful babies to sleep quickly and easily. It's the way doctors endorse, and millions of mothers have proved is safe and harmless. A few drops of purely vegetable, pleasant-tasting Fletcher's Castoria, has the most restful, restless baby or child asleep in a few minutes! And for colic, constipation, colds and upset spells, there's nothing like Castoria. The Chas. H. Fletcher signature is the mark of genuine Castoria. Avoid imitations and be safe.

Old-Time Athletics

An oldtimer was complaining that the schools devote too much time to athletics nowadays. "Well," someone asked, "what did you old-timers do when you went to school?" "We had fights," replied the old retdenter.

Persistent Asthma. A most distressing characteristic of this debilitating disease, is the persistence with which recurring attacks come to sap away strength and leave the sufferer in a state of almost continual exhaustion. No wiser precaution can be taken than that of keeping at hand a supply of Dr. J. D. Kellogg's Asthma Remedy, famous as the most potent remedy for eradicating the disease from the tender air passages.

Canada Early Prize Winner

That Canada early took foremost place in fish culture is indicated by the fact that in 1883 at the Great International Fisheries Exhibition in London, she carried off the highest award, namely, the gold medal and diploma for the best and most complete fish-breeding establishment in the Exhibition.

Children suffering from worms soon show the symptoms, and any mother can detect the presence of these parasites by the writhings and fretting of the child. Until expelled and the system cleared of them, the child cannot regain its health. Miller's Worm Powders are prompt and efficient not only for the eradication of worms, but also as a toner up for children that are run down in consequence.

The Germans have built a car that will run one mile on half an ounce of gas. Those Christmas cigarette lighters will come in handy yet.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Exterminator to give relief. Its effects are sure and lasting.

"Daddy," cried the doctor's small son, "I want a drink."

"Sorry," murmured daddy, sleepily, "but I'm all out of prescription blanks."

Stop the Cough. Coughing is caused by irritation in the respiratory passage and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

"So Barker is doing a cash business and making lots of money."

"Yes, he's feathering his nest with down payments, so to speak."

Minard's Liniment for Coughs and Colds.

CHRISTIAN GROWTH

Golden Text: "But grow in the grace and knowledge of our Lord and Saviour Jesus Christ."—2 Peter 3. 18a.

Lesson: John 1.40-42; Matthew 16. 15-18; John 21. 15-19; Luke 2.40. 52; Ephesians 4.11-16; Philippians 1.6. 9-11; 3.12-16; Colossians 1.9-11; Hebrews 6.1-3.

Devotional Reading: John 15.1-8.

Explanations and Comments

Becoming a Follower Of Jesus. John 1.40-42.—After a day in the company of Jesus (read verses 35-39), Andrew sought his brother and told him that he and John had found the Messiah, Messiah (Hebrew, and Christ (Greek), mean "The Anointed One." Hebrew kings were anointed with oil when given their office, and the Spiritual King was thought of as The Anointed, The Chosen One of God, until The Anointed, the Christ, became the name by which he was designated. Then Andrew brought Peter to Jesus.

The nearer another is to us, the greater our responsibility for him. Our own brothers and sisters know us better than do those outside the family circle; they know our faults and failings, and therefore we shrink from talking to them about our spiritual experiences. It may require courage to do this, but our Christianity is shallow if we cannot do it.

As He looked upon Andrew's brother, Jesus said, "Thou art Simon the son of John; thou shalt be called Cephas." Cephas, the Aramaic name, and Petros, Peter, the Greek name, mean "a stone," a detached piece of rock. Jesus knew Peter was too impulsive to be reliable; but he also knew that he would become the rock on which he would one day build His church (Matthew 16.13-19). "In a gallery in Europe there hang side by side Rembrandt's first picture, a simple sketch, imperfect and faulty, and his great masterpiece which all men admire. And so in the two names, Simon and Peter, we have first a rude fisherman, the man as he was before Jesus began his work on him; and, second, the man as he became after the friendship of Jesus and the teaching of Jesus and the discipline of life had wrought the transformation in him."—J. H. Miller.

CHAPTER XIV.—Continued.

Hand stripped to the waist. Connie's eyes rested on the mighty frame of this huge blond; the bunched and rippling muscles, the great chest covered with a mat of thick hair, and the enormous limbs. Her glance then turned and roved to the man who was to fight for her honor. Donald's eyes were like burning coals. His face had regained its color, but was contorted with a passion that made him seem unnatural. Yet he appeared a mere stripling in comparison to his burly antagonist.

For a moment Connie became a primitive woman. She felt as though she could rend and tear. Her eyes darted blue lightnings of wrath toward the man who had insulted her, and her small hands clinched in impotent fury. Her nails cut into her palms as she exercised every ounce of self-control to keep from screaming aloud. Donald was fighting for her. She caught her breath in a quick stab. Her heart was beating with alternate throbs of joy and fear. A sudden fit of trembling seized her, and her head felt light and giddy.

Hand's reputation as a rough and tumble fighter was well known throughout the province. It was his proud boast that he never had been whipped. He advanced now, a sinister leer on his face. Andy ran to Donald's side.

"Box 'im, Donnie," he whispered. "Don't let 'im get 'old on you."

"You goin' to vip me? De dude goin' to vip me? Ach!" scoffed Hand in guttural accents.

He came slowly forward with arms spread wide, his thick fingers working convulsively. Donald leaned slightly forward and waited. As he neared him, Hand tore in sure of himself in the rough and tumble. Donald side-stepped the big man's first rush and shot his left to his face. He was not properly set for the blow, but it stung Hand to madness.

"Ach!" he grunted, "stand and fight you d— coward!"

He came on, his arms swinging wildly. Leaping aside, Donald's heel struck a stump, and before he could regain his footing the giant's arms were around him in a bone-crushing grasp. His hands were clasped at Donald's waist, and the big head

was pressed suffocatingly against his throat. Donald was forced slowly backward to strike the ground with a thud, the big man on top.

"Now I got you!" panted Hand as he released his hold on Donald's waist and aimed a blow at his face. With a quick movement the under man turned face down. Hand struck him viciously as he lay prostrate under him.

Connie's eyes were wide with horror, and a muffled scream escaped her lips as the blow fell.

With a quick, convulsive movement of his lithe body Donald threw Hand from his back and sprang to his feet. Whirling quickly as the foreigner came toward him, he sent in a volley of blows to his opponent's face. Hand staggered, but did not fall. His lips were cut and bleeding; his nose was broken; and he spat out several broken teeth. Any one of the blows landed was sufficient to send an ordinary man down for the count, but still the gargantuan giant came on.

In and out Donald flashed, his arms moving like steel pistons. Hand could not keep away from the punishing left hand of his lighter opponent. Men not trained in the science of boxing have no punishing power in their left hand, but depend solely on their right. Such was the case with Hand. His style did not vary for a moment. With head lowered between his powerful shoulders, he would bore in, swinging wildly in the hope of landing a lucky punch, or striving to get a hold on his adversary. Donald's hand kept beating a tattoo on his rock-like jaw, but still Hand came forward, slowly and relentlessly as a steam-roller.

Crowding Donald back to the line of tense spectators, Hand rushed him into the scattering crowd and seized him in a rib-cracking embrace. Donald broke the hold, but not before the brute had butted him over the eye. With the blow Donald's senses reeled and the blood gushed from a wide gash on his brow. A blow from the foreigner's big fist then caught him over the heart and sent him staggering to his knees. With a curse the big man came after him. Andy shouted hysterical words of advice.

Donald came slowly to his feet and mechanically side-stepped as Hand came stumbling toward him. Donald evaded him until his head cleared, and then summoned his remaining strength into one mighty blow that landed flush on his opponent's midriff. The blond beast came to his knees with a dull grunt.

"Go after him!" yelled excited voices from the crowd.

Donald stepped forward with fist drawn back to strike the kneeling man, but his arm fell to his side and he shook his head. "Get up!" he commanded hoarsely.

Even the strikers gasped their appreciation of this honorable act. A murmur of applause came from both sides. The foreigner shook his shaggy blond head and came uncertainly to his feet and the sanguinary battle went on. Both men were tired. Hand's breath was coming in short-choking gasps from his tortured lungs, and his face was one smear of blood. Donald's left eye was closed; his lips were split, and the gash over his eye had covered his body with blood. His arms were tired from pounding the iron jaw of his adversary. The big logger's strength was waning; the pounding administered by Donald was beginning to tell. But Donald was too weak to avoid his rushes. In a clinch Hand again butted him with his head.

Blackie, his eyes blazing, leaped forward with a peavy handle in his hand. "You fight fair, d— you, or I'll brain you!" he shouted. One of the strikers attempted to wrest the peavy handle from his hands. Blackie felled him with a blow of his fist. It looked for one tense moment

as if there would be a general melee. There came sudden mutterings from the crowd of strikers.

"Back!" John Hiller's voice rang out sharp and clear. "I'll kill the first man that interferes!" The eyes shining over the long-barrelled Colt held a dangerous glint. The men who had moved to the centre backed away hurriedly.

Back and forth the combatants struggled, neither gaining any decided advantage, each trying to land a blow that would end the battle. Reeling, gasping, striking, falling to their knees from sheer weakness, the men fought on under a burning noonday sun.

No knight of old ever fought more nobly for a fair lady's honour than did Donald McLean that day by the lake-shore. His undershirt was torn to tatters, showing his white skin blotched with welts and bruises. He was losing his sense of distance. Swinging wildly with his left, his wrist struck Hand's adamant jaw and the onlookers saw his face writhe in pain as the arm fell helplessly to his side.

"E's broken 'is 'and," groaned Andy.

"Oh, stop it, Andy, please stop it!" sobbed Connie, her arms held out in entreaty.

Donald's face turned a sickly grey, and as the well-nigh sightless foreigner staggered weakly toward him, he with a strength born of agony whipped his right to his opponent's sagging jaw. The big man faltered, sank slowly to hands and knees, then stretched at full length, his face pressing the soil, quivered and lay still. No sound came from the crowd. The thing had been too stupendous for immediate shouting or applause. Donald stood for an instant swaying uncertainly, then turned to stumble toward his cabin.

Blackie sprang to the top of a stump and swung his hat in the air. "Three cheers for our boss!" he yelled wildly.

A roaring cheer came from the crowd with a right good will.

"Boys, let's go back to work!" shouted Blackie.

"We're with you, Blackie!" they answered.

Gillis reached Donald's side as he tottered into the cabin and caught him in his arms as he collapsed into unconsciousness. The big man picked him up tenderly and placed him on the bed.

"Get some 'ot water and towels

and telephone for Dr. Paul," com-

manded Andy tersely.

As Gillis left to fill Andy's commission, Connie fell on her knees by the bedside and wept with wild and passionate violence. "Oh, Donald!

Donald!" she sobbed, "you fought for me. I love you! I love you! Oh Andy," turning her streaming eyes to the little man, "he won't die, will he? Tell me he won't die!" Her trembling fingers were smoothing Donald's dark hair, and she kissed his battered face tenderly, all the while calling his name hysterically.

With tears in his eyes and a heart

full of sympathy, little Andy looked

down on the recumbent form of his

unconscious friend. "E's all right

Connie. 'E'll be all right in a few

days," he answered her in a choking

voice.

(To Be Continued.)

To believe with certainty we must begin by doubting.—Stanislaus.

CHILDREN'S
COLDSare doubly dangerous
after Flu

Physicians advise that the chief danger in this epidemic is AFTER influenza. Then, more than ever, colds attacking a child's weakened system may lead to bronchitis, pneumonia, sinus trouble, abscess of the ear, mastoiditis, or even the dread meningitis.

Check Colds Without "Dosing"

A peculiarity of influenza is that its toxins leave the digestive system upset. Too much "dosing" further disturbs the digestion and lessens the appetite, just when the child needs nourishment more than ever. Internal medication should therefore be avoided, except on the advice of a physician.

As Vicks VapoRub is applied externally, it can be used freely at the first sign of a cold with no fear of upsetting even the most delicate stomach. Just rub it on the throat and chest at bedtime.

Vicks Acts 2 Ways at Once

(1) Its medicated vapors, released by the body-heat, are inhaled direct to the inflamed air-passages, loosening the phlegm and easing the difficult breathing.

(2) At the same time, Vicks acts through the skin like a poultice, "drawing out" tightness and soreness, and thus helping the vapors to break up the congestion.

Of course, Vicks 2-way action is just as effective for adults' cold-troubles as it is for those of children.

VICKS
VAPORUB

For Colds of All the Family

No man expects a great deal from marriage. He is quite satisfied if his wife is a good cook, a good valet, an attentive audience, and a patient nurse.

HEADACHE
RELIEVED

CARTER'S HEADACHE PILLS
This Purely Vegetable Pill quickly corrects the digestive disturbances, removes the intestinal poisons, and sick headache quickly disappears. Your whole system enjoys a tonic effect, constipation vanishes, and you feel a renewed vigor. Avoid bromides and dope, they are depressing and harmful. All Druggists 25c and 75c red pkgs.

FARMER'S WIFE
GETS STRENGTH

By Taking Lydia E. Pinkham's Vegetable Compound

Wilton, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound through the Change of Life. It helps me and I cannot praise it too highly. I was troubled with heat flashes and my limbs were heavy so I could hardly walk to do my farm work. I saw in the newspapers your ad about the Vegetable Compound and thought

to give it a trial. The first bottle gave me relief and I have told others what it does for me. I am willing for you to use my letter if you choose."—Mrs. D. B. PETERS, Wilton, Ontario.

WINDOLITE

The Improved
Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

DON'T MISS IT

TENNIS CLUB CLEARS \$98.00 ON VALENTINE DANCE

The Valentine dance promoted by
the Carbon Tennis Club on February
14, proved to be a great success. Not
only was there a substantial balance
in hand (after all expenses were paid)
which amounted to \$98, but what was
even more pleasing to the manage-
ment, expressions of satisfaction were
heard from all who attended, many
of whom declared it to be the best
dance of the season. Among other
items, the classic dances given by
Miss G. Smith of Penley's Dancing
Academy, during the supper interval,
were greatly appreciated by all pres-
ent.

A scientist has found that the earth
is rotating faster than it used to. We
were wondering why the time for pub-
lication came around so suddenly.

Have you heard about the Scotch-
man who was building a house and
telephoned to the Masonic Temple for
a couple of Free Masons.

Mrs. Brown: So your husband was
lost at sea?

Mrs. Green: Yes, a bathing beauty
got him.

An INVITATION

SPECIAL PRESENTATION of The Outstanding Chevrolet of Chevrolet History

EVERYONE is familiar with Chevrolet's brilliant
record of past success, but the new Chevrolet
represents the most spectacular of all its achievements
... introducing a new conception of motor car value.

It is with pleasure, therefore, that we announce our
ability to secure the services of a Chevrolet factory
expert to conduct for us a special presentation of the
Outstanding Chevrolet of Chevrolet History.

This presentation comprises a complete, thorough ex-
planation of this sensational new car—and, in addi-
tion, a special series of illuminated slides and a motion
picture of unusual interest entitled "With Chevrolet
Across Canada."

Everyone is interested in the latest automobile de-
velopments! Everyone is cordially invited to attend!
Make a note of the time and place.
